**\*June 2007**

# **ACIP MCV4 Recommendations**

## **May 2005**

### **Routine vaccination of the following groups**

- **Persons aged 11-12 years**
- **Adolescents at high school entry**
- **Other persons at increased risk of IMD, including college freshmen living in dormitories**

# History of MCV4 Recommendations

- **May 2005:** ACIP recommendations for MCV4 in adolescents based on supply projections
- **May 2006:** MCV4 supply-demand issue—defer 11-12 year old MCV4 vaccination
- **October 2006:** supply improved—resume 11-12 year old recommendation
- **June 2007:** excess MCV4 supply
